

ST PAUL'S CATHOLIC PRIMARY SCHOOL AND NURSERY

Child Protection Policy, Procedure and Guidance

Our Mission Statement

"Do everything with love."

(St Paul's first letter to the Corinthians 16:14)

This means that we will...

- *Show our love for Jesus in everything we say and do*
- *Respect everyone by recognising that God made us all different but equally valued.*
- *Strive for excellence and find ways to share, develop and celebrate our talents.*
- *Promote a safe, happy and enjoyable environment.*
- *Actively support our school, parish and the wider community.*

Policy Statement

We recognise our moral and statutory responsibility to safeguard and promote the welfare of all children.

We make every effort to provide a safe and welcoming environment underpinned by a culture of openness where both children and adults feel secure, able to talk and believe that they are being listened to.

We maintain an attitude of “it could happen here” where safeguarding is concerned.

The purpose of this policy is to provide staff, volunteers and governors with the framework they need in order to keep children safe and secure in our school and to inform parents and guardians how we will safeguard their children whilst they are in our care.

Specific guidance is available to staff within the procedure documents.

This policy is written using the advice of Working Together to Safeguard Children (2015) and Keeping Children Safe in Education (2016) and other documents

Definitions

Within this document:

Child Protection is an aspect of safeguarding, but is focused on how we respond to children who have been significantly harmed or are at risk of significant harm.

The term **Staff** applies to all those working for or on behalf of the school, full time or part time, in either a paid or voluntary capacity.

Child refers to all young people who have not yet reached their 18 birthday. On the whole, this will apply to pupils of our school; however the policy will extend to visiting children and pupils from other establishments

Parent refers to birth parents and other adults in a parenting role for example adoptive parents, step parents, guardians and foster carers.

Abuse could mean neglect, physical, emotional or sexual abuse or any combination of these. Parents, carers and other people can harm children either by direct acts and / or failure to provide proper care. Explanations of these are given within the procedure document.

Aims

- To provide Staff with the framework to promote and safeguard the wellbeing of children and in so doing ensure they meet their statutory responsibilities.
- To ensure consistent good practice across the school.
- To demonstrate our commitment to protecting children.

Principles and Values

- Children have a right to feel secure and cannot learn effectively unless they do so.
- All children regardless of age, gender, race, ability, sexuality, religion, culture or language have a right to be protected from harm.
- All staff have a key role in prevention of harm and an equal responsibility to act on any suspicion or disclosure that may indicate a child is at risk of harm in accordance with the guidance.
- We acknowledge that working in partnership with other agencies protects children and reduces risk and so we will engage in partnership working throughout the child protection process to safeguard children.

- Whilst the school will work openly with parents as far as possible, the school reserves the right to contact children's social care or the police, without notifying parents if this is in the child's best interests.

Leadership and Management

We recognise that staff anxiety around child protection can undermine good practice and so have established clear lines of accountability, training and advice to support the process and individual staff within that process.

In this school any individual can contact the Designated Safeguarding Lead (DSL) if they have concerns about a young person.

DSL is *Zoe Killick* and the Deputy DSL is *Sophie Were*.

As an employer we comply with the "Disqualification under the childcare act 2006" guidance issued in February 2015

Training

All staff in our school are expected to be aware of the signs and symptoms of abuse and must be able to respond appropriately. Training is provided every year with separate training to all new staff on appointment. The DSL will attend annual training to enable them to fulfil their role.

Any update in national or local guidance will be shared with all staff in briefings and then captured in the next whole school training. This policy will be updated at least annually and during the course of the year to reflect any changes brought about by new guidance.

Referral

Following any concerns raised by staff, the DSL will assess the information and consider if significant harm has happened or there is a risk that it may happen. If the evidence suggests the threshold of significant harm, or risk of significant harm has been reached; or they are not clear if the threshold is met, then the DSL will contact children's social care. If the DSL is not available or there are immediate concerns, the staff member will refer directly to children's social care

Generally the DSL will inform the parents prior to making a referral however there are situations where this may not be possible or appropriate.

N.B. *The exception to this process will be in those cases of known FGM where there is a mandatory requirement for the teacher to report directly to the police.*

Confidentiality

- We maintain that all matters relating to child protection are to be treated as confidential and only shared as per the 'Working Together' guidance (2015).
- Information will only be shared with agencies who we have a statutory duty to share with or individuals within the school who 'need to know'.
- All staff are aware that they cannot promise a child to keep a disclosure confidential.

As a school we will educate and encourage pupils to keep safe through:

- The content of the curriculum
- A school ethos which helps children to feel safe and able to talk freely about their concerns, believing that they will be listened to and valued.

Dealing with allegations against staff

If a concern is raised about the practice or behaviour of a member of staff this information will be recorded and passed to the Head of School. The local authority designated officer (LADO) will be contacted and the relevant guidance will be followed

If the allegation is against the Head of School, the person receiving the allegation will contact the LADO, Executive Headteacher or nominated governor directly. If the allegation is against the Executive Headteacher, the Chair of Governors will contact the LADO.

Dealing with allegations against pupils

If a concern is raised that there is an allegation of a pupil abusing another pupil within the school, the 'dealing with allegations against pupils' guidance will be followed (Annex 6)

Legal context

Section 175 (maintained schools) or section 157 (independent schools and academies) of the education act 2002.

Children act 2004 & 1989

Annual review

As a school, we review this policy at least annually in line with DfE, PSCB and PCC and other relevant statutory guidance.

Staff responsibilities

All staff have a key role to play in identifying concerns early and in providing help for children. To achieve this they will:

- Establish and maintain an environment where children feel secure, are encouraged to talk and are listened to.
- Ensure children know that there are adults in the school whom they can approach if they are worried about any problems.
- Plan opportunities within the curriculum for children to develop the skills they need to assess and manage risk appropriately and keep themselves safe.
- Attend training in order to be aware of and alert to the signs of abuse.
- Maintain an attitude of “it could happen here” with regards to safeguarding.
- Record their concerns if they are worried that a child is being abused and report these to the relevant person as soon as practical that day.
- If the disclosure is an allegation against a member of staff they will follow the allegations’ procedures (Annex 5).
- Follow the procedures set out by the PSCB and take account of guidance issued by the DfE.
- Support pupils in line with their child protection plan.
- Treat information with confidentiality but never promising to “keep a secret”.
- Notify DSL of any child on a child protection plan who has unexplained absence.
- In the context of early help, staff will notify colleagues and/or parents of any concerns about their child(ren), and provide them with, or signpost them to, opportunities to change the situation.
- Liaise with other agencies that support pupils and provide early help.
- Ensure they know who the Designated Safeguarding Lead (DSL) and Deputy DSL are and know how to contact them.

Senior management team responsibilities:

- Contribute to inter-agency working in line with guidance (Working Together 2015)
- Provide a co-ordinated offer of early help when additional needs of children are identified
- Working with MASH team (Multiagency Safeguarding Hub), support their assessment and planning processes including the schools attendance at conference and core group meetings
- Carry out tasks delegated by the Governing Board such as training of staff; safer recruitment; maintaining a single central register
- Provide support and advice on all matters pertaining to safeguarding and child protection to all staff regardless of their position within the school
- Treat any information shared by staff or pupils with respect and follow procedures
- Ensure that allegations or concerns against staff are dealt with in accordance with guidance from Department for Education (DfE), Portsmouth Safeguarding Children Board (PSCB) and Portsmouth City Council (PCC)

Governing Board responsibilities

- The school has effective safeguarding policies & procedures including a child protection policy and a staff behaviour policy
- PSCB is informed annually about the discharge of duties via the safeguarding audit
- Recruitment, selection and induction follows safer recruitment practice.
- Allegations against staff are dealt with by the Head of School.
- A member of the senior staff team is designated as Designated Safeguarding Lead (DSL) and have this recorded in their job description
- Staff have been trained appropriately and this is updated in line with guidance
- Any safeguarding deficiencies or weaknesses are remedied without delay
- They have identified a nominated governor for allegations against the Head of School/Executive Headteacher

DSL responsibilities *(to be read in conjunction with DSL role description in KCSiE 2016)*

In this school the DSL is Zoe Killick

The Deputy DSL is Sophie Were

In addition to the role of staff and senior management team the DSL will

- Assist the Governing Board in fulfilling their responsibilities under section 175 or 157 of the education act 2002
- Attend initial training for the role and refresh this every year. By attending the initial refresher training and then demonstrating evidence of continuing professional development thereafter
- Ensure every member of staff knows who the DSL is, is aware of the DSL role and has their contact details
- Ensure all staff and volunteers understand their responsibilities in being alert to the signs of abuse and responsibility for referring any concerns to the DSL
- Ensure that whole school training occurs annually so that staff and volunteers can fulfil their responsibilities
- Ensure any members of staff joining the school outside of this training schedule receive induction prior to commencement of their duties
- Keep written records of child protection concerns securely and separately from the main pupil file and use these records to assess the likelihood of risk
- Ensure that copies of safeguarding records are transferred accordingly (separate from pupil files) when a child transfers school
- Ensure that where a pupil transfers school and is on a child protection plan or is a child looked after, the information is passed to the new school immediately and that the child's social worker is informed
- Link with the PSCB to make sure staff are aware of training opportunities and the latest local policies on safeguarding
- Develop, implement and review procedures in school that enable the identification and reporting of all cases, or suspected cases, of abuse

Child Protection Procedures

Overview

The following procedures apply to all staff working in the school and will be covered by training to enable staff to understand their role and responsibility.

The aim of our procedures is to provide a robust framework which enables staff to take appropriate action when they are worried a child is being abused.

The prime concern at all stages must be the interests and safety of the child. Where there is a conflict of interest between the child and an adult, the interests of the child must be paramount.

If a member of staff suspects abuse or they have a disclosure of abuse made to them they must:

1. Make an initial record of the information
2. Report it to the DSL immediately
3. The DSL will consider if there is a requirement for immediate medical intervention, however urgent medical attention should not be delayed if DSL are not immediately available (see point 8 below)
4. Make an accurate record (which may be used in any subsequent court proceedings) as soon as possible and within 24 hours of the occurrence, of all that has happened, including details of:
 - Dates and times of their observations
 - Dates and times of any discussions they were involved in.
 - Any injuries
 - Explanations given by the child / adult
 - What action was taken
 - Any actual words or phrases used by the child

The records must be signed and dated by the author.

Following a report of concerns from a member of staff, the DSL must:

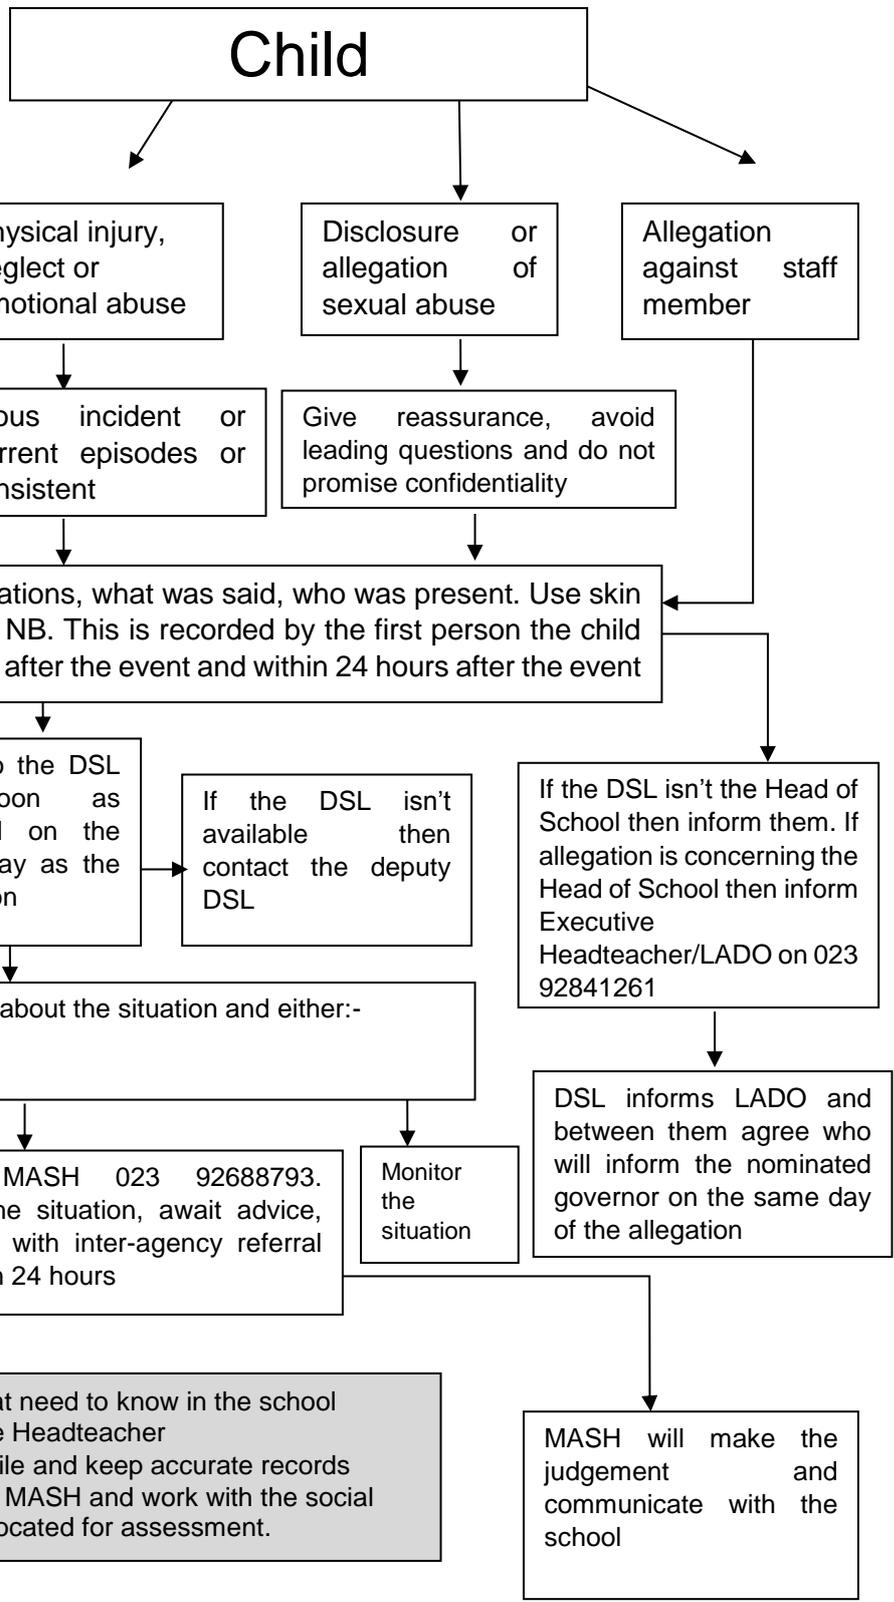

1. Decide whether or not there are sufficient grounds for suspecting significant harm in which case a referral must be made to children's social care
2. Normally the school should try to discuss any concerns about a child's welfare with the family and where possible to seek their agreement before making a referral to children's social care. However, in accordance with DfE guidance, this should only be done when it will not place the child at increased risk or could impact a police investigation. The child's views should also be taken into account.
3. If there are grounds to suspect a child is suffering, or is likely to suffer, significant harm they must contact children's social care via the MASH team on 023 92688793 and make a clear statement of:
 - the known facts
 - any suspicions or allegations
 - whether or not there has been any contact with the child's family

If the DSL feels unsure about whether a referral is necessary they can phone the MASH team to discuss concerns

4. If there is not a risk of significant harm, then the DSL will either actively monitor the situation or consider the early help process
5. The DSL must confirm any referrals in writing to children's social care, within 24 hours, including the actions that have been taken. The written referral should be made using the inter-agency referral form (IRAF) which will provide children's social care with the supplementary information required about the child and family's circumstances. (IARF can be accessed at the following link <http://www.portsmouthscb.org.uk/wp-content/uploads/Inter-Agency-Referral-Form-to-Portsmouth-Social-Care-Dec-12.doc>)
6. If a child is in immediate danger and urgent protective action is required, the police should be called. The DSL should also notify children's social care of the occurrence and what action has been taken
7. Where there are doubts or reservations about involving the child's family, the DSL should clarify with children's social care or the police whether, the parents should be told about the referral and, if so, when and by whom. This is important in cases where the police may need to conduct a criminal investigation.
8. When a pupil is in need of *urgent* medical attention and there is suspicion of abuse the DSL should take the child to the accident and emergency unit at the nearest hospital, having first notified children's social care. The DSL should seek advice about what action children's social care will take and about informing the parents, remembering that parents should normally be informed that a child requires urgent hospital attention.

Any additional information:

Dealing with disclosures**All staff should:**

A member of staff who is approached by a child should listen positively and try to reassure them. They cannot promise complete confidentiality and should explain that they may need to pass information to other professionals to help keep the child or other children safe. The degree of confidentiality should always be governed by the need to protect the child.

Additional consideration needs to be given to children with communication difficulties and for those whose preferred language is not English. It is important to communicate with them in a way that is appropriate to their age, understanding and preference.

All staff should know who the DSL is and who to approach if the DSL is unavailable. Ultimately, all staff have the right to make a referral to the police or social care directly and should do this if, for whatever reason, there are difficulties following the agreed protocol, e.g. they are the only adult on the school premises at the time and have concerns about sending a child home.

Guiding principles, the seven R's**Receive**

- Listen to what is being said, without displaying shock or disbelief
- Accept what is said and take it seriously
- Make a note of what has been said as soon as practicable

Reassure

- Reassure the pupil, but only so far as is honest and reliable
- Don't make promises you may not be able to keep e.g. 'I'll stay with you' or 'everything will be alright now' or 'I'll keep this confidential'
- Do reassure e.g. you could say: 'I believe you', 'I am glad you came to me', 'I am sorry this has happened', 'We are going to do something together to get help'

Respond

- Respond to the pupil only as far as is necessary for you to establish whether or not you need to refer this matter, but do not interrogate for full details
- Do not ask 'leading' questions i.e. 'did he touch your private parts?' or 'did she hurt you?' Such questions may invalidate your evidence (and the child's) in any later prosecution in court
- Do not criticise the alleged perpetrator; the pupil may care about him/her, and reconciliation may be possible
- Do not ask the pupil to repeat it all for another member of staff. Explain what you have to do next and whom you have to talk to. Reassure the pupil that it will be a senior member of staff

Report

- Share concerns with the Designated Safeguarding Lead as soon as possible
- If you are not able to contact your Designated Safeguarding Lead, and the child is at risk of immediate harm, contact the children's services department directly

- If you are dissatisfied with the level of response you receive following your concerns, you should press for re-consideration

Record

- If possible make some very brief notes at the time, and write them up as soon as possible
- Keep your original notes on file
- Record the date, time, place, persons present and noticeable nonverbal behaviour, and the words used by the child. If the child uses sexual 'pet' words, record the actual words used, rather than translating them into 'proper' words
- Complete a body map to indicate the position of any noticeable bruising
- Record facts and observable things, rather than your 'interpretations' or 'assumptions'

Remember

- Support the child: listen, reassure, and be available
- Complete confidentiality is essential. Share your knowledge only with appropriate professional colleagues
- Try to get some support for yourself if you need it

Review (led by DSL)

- Has the action taken provided good outcomes for the child?
- Did the procedure work?
- Were any deficiencies or weaknesses identified in the procedure? Have these been remedied?
- Is further training required?

What happens next?

It is important that concerns are followed up and it is everyone's responsibility to ensure that they are. The member of staff should be informed by the DSL what has happened following the report being made. If they do not receive this information they should be proactive in seeking it out.

If they have concerns that the disclosure has not been acted upon appropriately they might inform the safeguarding governor of the school and/or may ultimately contact the children's services department.

Receiving a disclosure can be upsetting for the member of staff and schools should have a procedure for supporting them after the disclosure. This might include reassurance that they have followed procedure correctly and that their swift actions will enable the allegations to be handled appropriately.

In some cases additional counselling might be needed and they should be encouraged to recognise that disclosures can have an impact on their own emotions.

Allegations against staff

Procedure

This procedure should be used in all cases in which it is alleged a member of staff or volunteer in a school has:

- **behaved in a way that has harmed a child, or may have harmed a child;**
- **possibly committed a criminal offence against or related to a child; or**
- **behaved towards a child or children in a way that indicates he or she would pose a risk of harm to children**

In dealing with allegations or concerns against an adult in the school, staff must:

- Report any concerns about the conduct of any member of staff or volunteer to the Head of School or the DSL as soon as possible
- If an allegation is made against the Head of School, the concerns need to be raised with the Executive Headteacher/LADO or nominated governor as soon as possible
- Once an allegation has been received by the Head of School/Executive Headteacher or nominated governor they will contact the Local Authority Designated Officer on 023 92437648 as soon as possible and before carrying out any investigation into the allegation other than preliminary enquiries.
- Inform the parents of the allegation unless there is a good reason not to

In liaison with the LADO, the school will determine how to proceed and if necessary the LADO will refer the matter to children's social care and/or the police.

If the matter is investigated internally, the LADO will advise the school to seek guidance from their personnel/HR provider in following procedures set out in 'Keeping Children Safe in Education' (2016) and the PSCB procedures.

Managing allegations against other pupils
Model policy & procedure

DfE guidance keeping children safe in education (2016) says that ‘governing bodies should ensure that there are procedures in place to handle allegations against other children’. The guidance also states the importance of minimising the risks of peer-on-peer abuse. In most instances, the conduct of pupils towards each other will be covered by the school’s behaviour policy. Some allegations may be of such a serious nature that they may raise safeguarding concerns. These allegations are most likely to include physical abuse, emotional abuse, sexual abuse and sexual exploitation. It is also likely that incidents dealt with under this policy will involve older pupils and their behaviour towards younger pupils or those who are vulnerable.

The safeguarding implications of sexual activity between young people

The intervention of child protection agencies in situations involving sexual activity between children can require difficult professional judgments. Some situations are statutorily clear – for example, a child under the age of 13 cannot consent to sexual activity. But it will not necessarily be appropriate to initiate safeguarding procedures where sexual activity involving children and young people below the age of legal consent (16 years) comes to notice. In our society generally the age at which children become sexually active has steadily dropped. It is important to distinguish between consensual sexual activity between children of a similar age (where at least one is below the age of consent), and sexual activity involving a power imbalance, or some form of coercion or exploitation. It may also be difficult to be sure that what has or has been alleged to have taken place definitely does have a sexual component.

As usual, important decisions should be made on a case by case basis, on the basis of an assessment of the children’s best interests. Referral under safeguarding arrangements may be necessary, guided by an assessment of the extent to which a child is suffering, or is likely to suffer, significant harm. Key specific considerations will include:

The age, maturity and understanding of the children;

Any disability or special needs of the children;

Their social and family circumstance;

Any evidence in the behaviour or presentation of the children that might suggest they have been harmed;

Any evidence of pressure to engage in sexual activity;

Any indication of sexual exploitation;

There are also contextual factors. Gender, sexuality, race and levels of sexual knowledge can all be used to exert power. A sexual predator may sometimes be a woman or girl and the victim a boy

¹ Taken from The safeguarding implications of events leading to the closure of Stanbridge Earls School – A Serious Case Review (2015)

Policy:-

At St Paul’s Catholic Primary we believe that all children have a right to attend school and learn in a safe environment. Children should be free from harm by adults in the school and other pupils.

We recognise that some pupils will sometimes negatively affect the learning and wellbeing of others and their behaviour will be dealt with under the school's behaviour policy.

Prevention

As a school we will minimise the risk of allegations against other pupils by:-

- Providing a developmentally appropriate PSHE syllabus which develops pupils understanding of acceptable behaviour and keeping themselves safe
- Having systems in place for any pupil to raise concerns with staff, knowing that they will be listened to, believed and valued
- Delivering targeted work on assertiveness and keeping safe those pupils identified as being at risk
- Developing robust risk assessments and providing targeted work for pupils identified as being a potential risk to other pupils.

Allegations against other pupils which are safeguarding issues

Occasionally, allegations may be made against pupils by others in the school, which are of a safeguarding nature. Safeguarding issues raised in this way may include physical abuse, emotional abuse, sexual abuse and sexual exploitation. It is likely that, to be considered a safeguarding allegation against a pupil, some of the following features will be found.

If the allegation:-

- Is made against an older pupil and refers to their behaviour towards a younger pupil or a more vulnerable pupil
- Is of a serious nature, possibly including a criminal offence
- Raises risk factors for other pupils in the school
- Indicates that other pupils may have been affected by this pupil
- Indicates that young people outside the school may be affected by this pupil

Examples of safeguarding issues against a pupil could include:

Physical Abuse

- Violence, particularly pre-planned
- Forcing others to use drugs or alcohol

Emotional Abuse

- Blackmail or extortion
- Threats and intimidation

Sexual Abuse

- Indecent exposure, indecent touching or serious sexual assaults
- Forcing others to watch pornography or take part in sexting

Sexual Exploitation

- Encouraging other children to engage in inappropriate sexual behaviour (For example - having an older boyfriend/girlfriend, associating with unknown adults or other sexually exploited children, staying out overnight)
- Photographing or videoing other children performing indecent acts

Procedure:-

- When an allegation is made by a pupil against another pupil, members of staff should consider whether the complaint raises a safeguarding concern. If there is a safeguarding concern the Designated Safeguarding Lead (DSL) should be informed
- A factual record should be made of the allegation, but no attempt at this stage should be made to investigate the circumstances
- The DSL should contact the MASH team to discuss the case
- The DSL will follow through the outcomes of the discussion and make a referral where appropriate
- If the allegation indicates that a potential criminal offence has taken place, refer the case to the multi-agency agency safeguarding hub where the police will become involved
- Parents, of both the pupil being complained about and the alleged victim, should be informed and kept updated on the progress of the referral
- The DSL will make a record of the concern, the discussion and any outcome and keep a copy in the files of both pupils' files
- It may be appropriate to exclude the pupil being complained about for a period of time according to the school's behaviour policy and procedures
- Where neither social services nor the police accept the complaint, a thorough school investigation should take place into the matter using the school's usual disciplinary procedures
- In situations where the school considers a safeguarding risk is present, a risk assessment should be prepared along with a preventative, supervision plan
- The plan should be monitored and a date set for a follow-up evaluation with everyone concerned

Briefing sheet for temporary and supply staff

For supply staff and those on short contracts in *St Paul's Catholic Primary school*

While working in St Paul's School, you have a duty of care towards the children here. This means that at all times you should act in a way that is consistent with their safety and welfare.

In addition, if at any time you have a concern about a child or young person, particularly if you think they may be at risk of abuse or neglect, it is your responsibility to share that concern with the Designated Safeguarding Lead (DSL).

This is not an exhaustive list but you may have become concerned as a result of:

- observing a physical injury, which you think may have been non-accidental
- observing something in the appearance of a child or young person which suggests they are not being sufficiently well cared for
- observing behaviour that leads you to be concerned about a child or young person
- a child or young person telling you that they have been subjected to some form of abuse

In any of the circumstances listed here, you must write down what you saw or heard, date and sign your account, and give it to the DSL. This may be the beginning of a legal process – it is important to understand that legal action against a perpetrator can be seriously damaged by any suggestion that the child has been led in any way.

If a child talks to you about abuse, you should follow these guidelines:

- Rather than directly questioning the child, just listen and be supportive
- Never stop a child who is freely recalling significant events, but don't push the child to tell you more than they wish
- Make it clear that you may need to pass on information to staff in other agencies who may be able to help – do not promise confidentiality. You are obliged to share any information relating to abuse or neglect
- Write an account of the conversation immediately, as close to verbatim as possible. Put the date and timings on it, and mention anyone else who was present. Then sign it, and give your record to the designated person/child protection officer, who should contact children's social care if appropriate

The school has a policy on safeguarding children and young people which you can find, together with the local procedures to be followed by all staff, in *policy file held in the school office and staff room*.

Remember, if you have a concern, discuss it with the DSL.

What is child abuse?

The following definitions are taken from *Working Together to Safeguard Children* HM Government (2015). In addition to these definitions, it should be understood that children can also be abused by honour based violence, forced marriage or female genital mutilation

What is abuse and neglect?

Abuse and neglect are forms of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm, or by failing to act to prevent harm. Children may be abused in a family or in an institutional or community setting, by those known to them or, more rarely, by a stranger. They may be abused by an adult or adults, or another child or children.

Physical abuse

Physical abuse may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating, or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.

Emotional abuse

The persistent emotional maltreatment of a child such as to cause severe and persistent adverse effects on the child's emotional development. It may involve conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person. It may include not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child's developmental capability, as well as overprotection and limitation of exploration and learning, or preventing the child participating in normal social interaction. It may involve seeing or hearing the ill-treatment of another. It may involve serious bullying (including cyber bullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur alone.

Sexual abuse

Involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving a high level of violence, whether or not the child is aware of what is happening. The activities may involve physical contact, including assault by penetration (for example, rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing. They may also include non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse (including via the internet). Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children.

Neglect

Neglect is the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy as a result of maternal substance abuse. Once a child is born, neglect may involve a parent or carer failing to:

- provide adequate food, clothing and shelter (including exclusion from home or abandonment)
- protect a child from physical and emotional harm or danger
- ensure adequate supervision (including the use of inadequate care-givers)
- ensure access to appropriate medical care or treatment

It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.

Indicators of abuse

Neglect

The nature of neglect

Neglect is a lack of parental care but poverty and lack of information or adequate services can be contributory factors.

Far more children are registered to the category of neglect on child protection plans than to the other categories. As with abuse, the number of children experiencing neglect is likely to be much higher than the numbers on the plans.

Neglect can include parents or carers failing to:

- provide adequate food, clothing and shelter
- protect a child from physical and emotional harm or danger
- ensure adequate supervision or stimulation
- ensure access to appropriate medical care or treatment.

NSPCC research has highlighted the following examples of the neglect of children under 12:

- frequently going hungry
- frequently having to go to school in dirty clothes
- regularly having to look after themselves because of parents being away or having problems such as drug or alcohol misuse
- being abandoned or deserted
- living at home in dangerous physical conditions
- not being taken to the doctor when ill
- not receiving dental care.

Neglect is a difficult form of abuse to recognise and is often seen as less serious than other categories. It is, however, very damaging: children who are neglected often develop more slowly than others and may find it hard to make friends and fit in with their peer group.

Neglect is often noticed at a stage when it does not pose a risk to the child. The duty to safeguard and promote the welfare of children (*what to do if you're worried a child is being abused* 2015) would suggest that an appropriate intervention or conversation at this early stage can address the issue and prevent a child continuing to suffer until it reaches a point when they are at risk of harm or in significant need.

Neglect is often linked to other forms of abuse, so any concerns school staff have should at least be discussed with the designated person/child protection co-ordinator.

Indicators of neglect

The following is a summary of some of the indicators that may suggest a child is being abused or is at risk of harm. It is important to recognise that indicators alone cannot confirm whether a child is being abused. Each child should be seen in the context of their family and wider community and a proper assessment carried out by appropriate persons. What is important to keep in mind is that if you feel unsure or concerned, do something about it. Don't keep it to yourself.

Physical indicators of neglect

- Constant hunger and stealing food
- Poor personal hygiene - unkempt, dirty or smelly
- Underweight

- Dress unsuitable for weather
- Poor state of clothing
- Illness or injury untreated

Behavioural indicators of neglect

- Constant tiredness
- Frequent absence from school or lateness
- Missing medical appointments
- Isolated among peers
- Frequently unsupervised
- Stealing or scavenging, especially food
- Destructive tendencies

Emotional abuse

The nature of emotional abuse

Most harm is produced in *low warmth, high criticism* homes, not from single incidents.

Emotional abuse is difficult to define, identify/recognise and/or prove.

Emotional abuse is chronic and cumulative and has a long-term impact.

All kinds of abuse and neglect have emotional effects although emotional abuse can occur by itself.

Children can be harmed by witnessing someone harming another person – as in domestic violence.

It is sometimes possible to spot emotionally abusive behaviour from parents and carers to their children, by the way that the adults are speaking to, or behaving towards children. An appropriate challenge or intervention could affect positive change and prevent more intensive work being carried out later on.

Indicators of emotional abuse

Developmental issues

- Delays in physical, mental and emotional development
- Poor school performance
- Speech disorders, particularly sudden disorders or changes.

Behaviour

- Acceptance of punishment which appears excessive
- Over-reaction to mistakes
- Continual self-deprecation (I'm stupid, ugly, worthless etc)
- Neurotic behaviour (such as rocking, hair-twisting, thumb-sucking)
- Self-mutilation
- Suicide attempts
- Drug/solvent abuse
- Running away
- Compulsive stealing, scavenging
- Acting out
- Poor trust in significant adults
- Regressive behaviour – e.g., wetting
- Eating disorders
- Destructive tendencies
- Neurotic behaviour
- Arriving early at school, leaving late

Social issues

- Withdrawal from physical contact
- Withdrawal from social interaction
- Over-compliant behaviour

- Insecure, clinging behaviour
- Poor social relationships

Emotional responses

- Extreme fear of new situations
- Inappropriate emotional responses to painful situations (“I deserve this”)
- Fear of parents being contacted
- Self-disgust
- Low self-esteem
- Unusually fearful with adults
- Lack of concentration, restlessness, aimlessness
- Extremes of passivity or aggression

Physical abuse

The nature of physical abuse

Most children collect cuts and bruises quite routinely as part of the rough and tumble of daily life. Clearly, it is not necessary to be concerned about most of these minor injuries. But accidental injuries normally occur on the *bony prominences* – e.g., shins. Injuries on the *soft* areas of the body are more likely to be inflicted intentionally and should therefore make us more alert to other concerning factors that may be present.

A body map (annex 3) can assist in the clear recording and reporting of physical abuse. The body map should only be used to record observed injuries and no child should be asked to remove clothing by a member of staff of the school.

Indicators of physical abuse / factors that should increase concern

- Multiple bruising or bruises and scratches (especially on the head and face)
- Clusters of bruises – e.g., fingertip bruising (caused by being grasped)
- Bruises around the neck and behind the ears – the most common abusive injuries are to the head
- Bruises on the back, chest, buttocks, or on the inside of the thighs
- Marks indicating injury by an instrument – e.g., linear bruising (stick), parallel bruising (belt), marks of a buckle
- Bite marks
- Deliberate burning may also be indicated by the pattern of an instrument or object – e.g., electric fire, cooker, cigarette
- Scalds with upward splash marks or *tide marks*
- Untreated injuries
- Recurrent injuries or burns
- Bald patches.

In the social context of the school, it is normal to ask about a noticeable injury. The response to such an enquiry is generally light-hearted and detailed. So, most of all, concern should be increased when:

- the explanation given does not match the injury
- the explanation uses words or phrases that do not match the vocabulary of the child (adults words)
- no explanation is forthcoming
- the child (or the parent/carer) is secretive or evasive
- the injury is accompanied by allegations of abuse or assault

You should be concerned if the child or young person:

- is reluctant to have parents/carers contacted
- runs away or shows fear of going home

- is aggressive towards themselves or others
- flinches when approached or touched
- is reluctant to undress to change clothing for sport
- wears long sleeves during hot weather
- is unnaturally compliant in the presence of parents/carers.
- has a fear of medical help or attention
- admits to a punishment that appears excessive.

Sexual abuse

The nature of sexual abuse

Sexual abuse is often perpetrated by people who are known and trusted by the child – e.g., relatives, family friends, neighbours, babysitters, people working with the child in school, faith settings, clubs or activities. Children can also be subject to child sexual exploitation.

Characteristics of child sexual abuse:

- it is often planned and systematic – people do not sexually abuse children by accident, though sexual abuse can be opportunistic
- grooming the child – people who abuse children take care to choose a vulnerable child and often spend time making them dependent
- grooming the child's environment – abusers try to ensure that potential adult protectors (parents and other carers especially) are not suspicious of their motives.

Most people who sexually abuse children are men, but some women sexually abuse too.

Indicators of sexual abuse

Physical observations

- Damage to genitalia, anus or mouth
- Sexually transmitted diseases
- Unexpected pregnancy, especially in very young girls
- Soreness in genital area, anus or mouth and other medical problems such as chronic itching
- Unexplained recurrent urinary tract infections and discharges or abdominal pain

Behavioural observations

- Sexual knowledge inappropriate for age
- Sexualised behaviour or affection inappropriate for age
- Sexually provocative behaviour/promiscuity
- Hinting at sexual activity
- Inexplicable decline in school performance
- Depression or other sudden apparent changes in personality as becoming insecure or clinging
- Lack of concentration, restlessness, aimlessness
- Socially isolated or withdrawn
- Overly-compliant behaviour
- Acting out, aggressive behaviour
- Poor trust or fear concerning significant adults
- Regressive behaviour, Onset of wetting, by day or night; nightmares
- Onset of insecure, clinging behaviour
- Arriving early at school, leaving late, running away from home
- Suicide attempts, self-mutilation, self-disgust
- Suddenly drawing sexually explicit pictures
- Eating disorders or sudden loss of appetite or compulsive eating
- Regressing to younger behaviour patterns such as thumb sucking or bringing out discarded cuddly toys
- Become worried about clothing being removed
- Trying to be 'ultra-good' or perfect; overreacting to criticism.

Child Sexual Exploitation (CSE)

Sexual exploitation of children is not limited by the age of consent and can occur up until the age of 18. CSE involves children being in situations, contexts or relationships where they (or a third person) receive 'something' as a result of them performing sexual activities. The something can include food, accommodation, drugs, alcohol, cigarettes, affection, gifts, or money.

Child sexual exploitation can happen via technology without the child's being aware; for example, being persuaded to post sexual images on the Internet/mobile phones without immediate payment or gain.

In all cases, those exploiting the child/young person have power over them by virtue of their age, gender, intellect, physical strength and/or economic or other resources. Violence, coercion and intimidation are common, involvement in exploitative relationships being characterised in the main by the child or young person's limited availability of choice resulting from their social/economic and/or emotional vulnerability.

Indicators a child may be at risk of CSE include:

- going missing for periods of time or regularly coming home late;
- regularly missing school or education or not taking part in education;
- appearing with unexplained gifts or new possessions;
- associating with other young people involved in exploitation;
- having older boyfriends or girlfriends;
- suffering from sexually transmitted infections;
- mood swings or changes in emotional wellbeing;
- drug and alcohol misuse; and
- displaying inappropriate sexualised behaviour.

CSE can happen to a child of any age, gender, ability or social status. Often the victim of CSE is not aware that they are being exploited and do not see themselves as a victim.

As a school we educate all staff in the signs and indicators of sexual exploitation. We use the sexual exploitation risk assessment form

http://www.proceduresonline.com/4lscb/portsmouth/files/risk_assess_toolkit.doc and associated guidance to identify pupils who are at risk and the DSL will share this information as appropriate with children's social care.

Female Genital Mutilation (FGM)

FGM comprises all procedures involving partial or total removal of the external female genitalia or other injury to the female genital organs for non-medical reasons. It has no health benefits and harms girls and women in many ways. It involves removing and damaging healthy and normal female genital tissue, and hence interferes with the natural function of girls' and women's bodies.

The age at which girls undergo FGM varies enormously according to the community. **The procedure may be carried out when the girl is new-born, during childhood or adolescence, just before marriage or during the first pregnancy.** However, the majority of cases of FGM are thought to take place between the ages of 5 and 8 and therefore girls within that age bracket are at a higher risk.

FGM is illegal in the UK.

On the 31 October 2015, it became mandatory for teachers to report known cases of FGM to the police. In these situations, the DSL and/or head will be informed and that the member of teaching staff has called the police to report suspicion that FGM has happened.

At no time will staff examine pupils to confirm this.

For cases where it is believed that a girl may be vulnerable to FGM or there is a concern that she may be about to be genitally mutilated the staff will inform the DSL who will report it as with any other child protection concern.

Preventing Radicalisation and Extremism

www.gov.uk/government/publications/protecting-children-from-radicalisation-the-prevent-duty
http://4lscb.proceduresonline.com/portsmouth/p_sq_ch_extremism.html

The prevent duty requires that all staff are aware of the signs that a child maybe vulnerable to radicalisation. The risks will need to be considered for political; environmental; animal rights; or faith based extremism that may lead to a child becoming radicalised. All staff have received awareness training in order that they can identify the signs of children being radicalised.

As part of the preventative process resilience to radicalisation will be built through the promotion of fundamental British values through the curriculum.

Any child who is considered vulnerable to radicalisation will be referred by the DSL to Portsmouth MASH, where the concerns will be considered in the MASH process. If the police prevent officer considers the information to be indicating a level of risk a “channel panel” will be convened and the school will attend and support this process.

Brook sexual behaviours traffic light tool

Behaviours: age 0 to 5

All green, amber and red behaviours require some form of attention and response. It is the level of intervention that will vary.

What is a green behaviour?

Green behaviours reflect safe and healthy sexual development. They are displayed between children or young people of similar age or developmental ability. They are reflective of natural curiosity, experimentation, consensual activities and positive choices

What can you do?

Green behaviours provide opportunities to give positive feedback and additional information.

Green behaviours

- holding or playing with own genitals
- attempting to touch or curiosity about other children's genitals
- attempting to touch or curiosity about breasts, bottoms or genitals of adults
- games e.g. mummies and daddies,
- doctors and nurses
- enjoying nakedness
- interest in body parts and what they do
- curiosity about the differences between boys and girls

What is an amber behaviour?

Amber behaviours have the potential to be outside of safe and healthy behaviour. They may be of potential concern due to age, or developmental differences. A potential concern due to activity type, frequency, duration or context in which they occur.

What can you do?

Amber behaviours signal the need to take notice and gather information to assess the appropriate action.

Amber behaviours

- preoccupation with adult sexual behaviour
- pulling other children's pants down/skirts up/trousers down against their will
- talking about sex using adult slang
- preoccupation with touching the genitals of other people
- following others into toilets or changing rooms to look at them or touch them
- talking about sexual activities seen on TV/online

What is a red behaviour?

Red behaviours are outside of safe and healthy behaviour. They may be excessive, secretive, compulsive, coercive, degrading or threatening and involving significant age, developmental, or power differences. They may pose a concern due to the activity type, frequency, duration or the context in which they occur

What can you do?

Red behaviours indicate a need for immediate intervention and action.

Red behaviours

- persistently touching the genitals of other children
- persistent attempts to touch the genitals of adults
- simulation of sexual activity in play
- sexual behaviour between young children involving penetration with objects
- forcing other children to engage in sexual play

This is intended to be used as a guide only. Please refer to the guidance tool at <https://www.brook.org.uk/our-work/the-sexual-behaviours-traffic-light-tool> for further information

Print date: 01/10/2015 - Brook has taken every care to ensure that the information contained in this publication is accurate and up-to-date at the time of being published. As information and knowledge is constantly changing, readers are strongly advised to use this information for up to one month from print date. Brook accepts no responsibility for difficulties that may arise as a result of an individual acting on the advice and recommendations it contains.

Brook sexual behaviours traffic light tool adapted from Family Planning Queensland. (2012). Traffic Lights guide to sexual behaviours. Brisbane: Family Planning Queensland, Australia.

Behaviours: age 5 to 9 and 9 to 13

All green, amber and red behaviours require some form of attention and response. It is the level of intervention that will vary.

What is a green behaviour?

Green behaviours reflect safe and healthy sexual development. They are displayed between children or young people of similar age or developmental ability and reflective of natural curiosity, experimentation, consensual activities and positive choices

What can you do?

Green behaviours provide opportunities to give positive feedback and additional information.

Green behaviours 5-9

- feeling and touching own genitals
- curiosity about other children's genitals
- curiosity about sex and relationships, e.g. differences between boys and girls, how sex happens, where babies come from, same-sex relationships
- sense of privacy about bodies
- telling stories or asking questions using swear and slang words for parts of the body

Green behaviours 9-13

- solitary masturbation
- use of sexual language including swear and slang words
- having girl/boyfriends who are of the same, opposite or any gender
- interest in popular culture, e.g. fashion, music, media, online games, chatting online
- need for privacy
- consensual kissing, hugging, holding hands with peers

What is an amber behaviour?

Amber behaviours have the potential to be outside of safe and healthy behaviour. They may be of potential concern due to age, or developmental differences. A potential concern due to activity type, frequency, duration or context in which they occur.

What can you do?

Amber behaviours signal the need to take notice and gather information to assess the appropriate action.

Amber behaviours 5-9

- questions about sexual activity which persist or are repeated frequently, despite an answer having been given
- sexual bullying face to face or through texts or online messaging
- engaging in mutual masturbation
- persistent sexual images and ideas in talk, play and art
- use of adult slang language to discuss sex

Amber behaviours 9-13

- uncharacteristic and risk-related behaviour, e.g. sudden and/or provocative changes in dress, withdrawal from friends, mixing with new or older people, having more or less money than usual, going missing
- verbal, physical or cyber/virtual sexual bullying involving sexual aggression
- LGBT (lesbian, gay, bisexual, transgender) targeted bullying
- exhibitionism, e.g. flashing or mooning
- giving out contact details online
- viewing pornographic material
- worrying about being pregnant or having STIs

What is a red behaviour?

Red behaviours are outside of safe and healthy behaviour. They may be excessive, secretive, compulsive, coercive, degrading or threatening and involving significant age, developmental, or power differences. They may pose a concern due to the activity type, frequency, duration or the context in which they occur

What can you do?

Red behaviours indicate a need for immediate intervention and action.

Red behaviours 5-9

- frequent masturbation in front of others
- sexual behaviour engaging significantly younger or less able children
- forcing other children to take part in sexual activities
- simulation of oral or penetrative sex
- sourcing pornographic material online

Red behaviours 9-13

- exposing genitals or masturbating in public
- distributing naked or sexually provocative images of self or others
- sexually explicit talk with younger children
- sexual harassment
- arranging to meet with an online acquaintance in secret
- genital injury to self or others
- forcing other children of same age, younger or less able to take part in sexual activities
- sexual activity e.g. oral sex or intercourse
- presence of sexually transmitted infection (STI)
- evidence of pregnancy

This is intended to be used as a guide only. Please refer to the guidance tool at <https://www.brook.org.uk/our-work/the-sexual-behaviours-traffic-light-tool> for further information

Print date: 01/10/2015 - Brook has taken every care to ensure that the information contained in this publication is accurate and up-to-date at the time of being published. Brook accepts no responsibility for difficulties that may arise as a result of an individual acting on the advice and recommendations it contains.

Brook sexual behaviours traffic light tool adapted from Family Planning Queensland. (2012). Traffic Lights guide to sexual behaviours. Brisbane: Family Planning Queensland, Australia.

Behaviours: age 13 to 17

All green, amber and red behaviours require some form of attention and response. It is the level of intervention that will vary.

What is a green behaviour?

Green behaviours reflect safe and healthy sexual development. They are displayed between children or young people of similar age or developmental ability and reflective of natural curiosity, experimentation, consensual activities and positive choices

What can you do?

Green behaviours provide opportunities to give positive feedback and additional information.

Green behaviours

- solitary masturbation
- sexually explicit conversations with peers
- obscenities and jokes within the current cultural norm
- interest in erotica/pornography
- use of internet/e-media to chat online
- having sexual or non-sexual relationships
- sexual activity including hugging, kissing, holding hands
- consenting oral and/or penetrative sex with others of the same or opposite gender who are of similar age and developmental ability
- choosing not to be sexually active

What is an amber behaviour?

Amber behaviours have the potential to be outside of safe and healthy behaviour. They may be of potential concern due to age, or developmental differences. A potential concern due to activity type, frequency, duration or context in which they occur.

What can you do?

Amber behaviours signal the need to take notice and gather information to assess the appropriate action.

Amber behaviours

- accessing exploitative or violent pornography
- uncharacteristic and risk-related behaviour, e.g. sudden and/or provocative changes in dress,
- withdrawal from friends, mixing with new or older people, having more or less money than usual, going missing
- concern about body image
- taking and sending naked or sexually provocative images of self or others
- single occurrence of peeping, exposing, mooning or obscene gestures
- giving out contact details online
- joining adult- only social networking sites and giving false personal information
- arranging a face to face meeting with an online contact alone

What is a red behaviour?

Red behaviours are outside of safe and healthy behaviour. They may be excessive, secretive, compulsive, coercive, degrading or threatening and involving significant age, developmental, or power differences. They may pose a concern due to the activity type, frequency, duration or the context in which they occur

What can you do?

Red behaviours indicate a need for immediate intervention and action.

Red behaviours

- exposing genitals or masturbating in public
- preoccupation with sex, which interferes with daily function
- sexual degradation/humiliation of self or others
- attempting/forcing others to expose genitals
- sexually aggressive/exploitative behaviour
- sexually explicit talk with younger children
- sexual harassment
- non-consensual sexual activity
- use of/acceptance of power and control in sexual relationships
- genital injury to self or others
- sexual contact with others where there
- is a big difference in age or ability
- sexual activity with someone in authority and in a position of trust
- sexual activity with family members
- involvement in sexual exploitation and/or trafficking
- sexual contact with animals
- receipt of gifts or money in exchange for sex

This is intended to be used as a guide only. Please refer to the guidance tool at <https://www.brook.org.uk/our-work/the-sexual-behaviours-traffic-light-tool> for further information

Annex 11

Safeguarding Protocol – The end of the day

The children in the class, is the class teachers' full responsibility to ensure that this protocol is adhered to

Year 5 and 6

Pupils are allowed to leave the school premises alone to walk home if we have written permission. Those children without permission will be accompanied to the link corridor or classroom doors by class teachers and will not be allowed to leave without a parent collecting.

Year 3 and 4

Pupils are not allowed to walk home alone.

Older siblings from year 5 and 6 may collect their younger sibling if we have written permission.

Year 1, 2 and EYFS

Pupils are only allowed to leave the school premises with a parent.

If a parent is late collecting (15:40 onwards) the class teacher is to accompany the child to the library and remain with the child until the parent has collected. Inform the school office so that they are aware. The school office will keep a log of the children who are not picked up on time. The Family Support Worker will then make contact with the parents to reinforce the need to collect children promptly at 3:30pm

In winter months KS2 pupils are not allowed to walk home after school clubs.

ALL teachers' must return to the classroom following PPA to dismiss their class.

Missing / Lost Child Procedure

This policy has been written with reference to the DfE guidance Keeping Children Safe in Education (2016) and Statutory Framework for the Early Years Foundation Stage (2014)

Introduction

The welfare of all our children is our paramount responsibility. Every adult who works at the School is aware that they have a key responsibility for helping to keep all of the children safe at all times. We make every effort to ensure that all children are closely supervised so that they remain safe. This is especially important when we undertake outings – please see the Health and Safety policy and the section below for the procedures to be followed on a visit off the School Premises.

Missing Children

It should be noted that a missing child could potentially be at risk of abuse or neglect. We are alert to that possibility and will notify all relevant authorities if it is deemed necessary.

All children are registered at the beginning of the school day. Registration is then taken again after lunch for all children. A list of absentees is held on SIMS. Therefore, for the purpose of this policy, the term 'missing/lost child' refers to a child who is not present without either authorisation or explanation. On occasions when a staff member identifies a child as missing from their expected location, immediate action is required as outlined in the procedures below.

Communications with parents and the appropriate services (particularly the police) are an integral part of the procedure and all instances of a lost/missing child must be reported to the Head of School/Deputy Head of School and the appropriate investigations made.

This policy applies to all members of our school community, as the School is fully committed to ensuring that the application of this policy is non-discriminatory in line with the UK Equality Act (2010). Further details are available in the School's Equal Opportunity Policy document.

This policy should be read in conjunction with the Child Protection and Safeguarding Policy and Procedures.

Procedure

A child is identified as missing when:

- absent at morning registration is not confirmed by a parent or guardian.
- comparing the children in a class with the day's absence log.
- a fellow child reports a missing friend or classmate.

Any member of staff discovering a discrepancy must immediately notify the school office/Family Support Worker who will:

- Contact the relevant member of staff to find out if the absence is expected or to check if there have been any medical emergencies.
- Check all lists of trips/events which are not on the school premises.

In the event of a child going missing staff should stay as calm as possible and follow this procedure.

For a Missing/Lost Child on School premises the procedure is as follows:

1. Member of staff who becomes aware that a child is missing immediately informs the School Office/Head of School/Deputy Head of School. They should ascertain when and where the child was last seen.
2. The Head of School/Deputy Head of School delegates a member of staff to ensure the safety of the remaining children with regard to appropriate supervision.
3. Head of School/Deputy Head of School organises a thorough search of the whole school premises, checking exits and possible hiding places.
4. When the child is found reassurance is given, and questions asked to ascertain how the incident occurred. *A written account is made, and a review of procedures for supervision and safety is carried out. A copy of this is given to the Head of School. The child's parents are informed.
5. Should the search prove negative the school office, informs the police (999) and parents under the direction of the Head of School/Deputy Head of School.

'Missing/Lost Child' on a Visit Off Site

In the extremely unlikely event that a child was to become detached from the group and become 'lost' whilst on a visit off the School premises then staff should follow the following procedure:

1. All staff and helpers to be alerted and a thorough search made of the immediate and surrounding areas.
2. Depending on location, others alerted, for example if in a shop/farm/museum then the relevant staff.
3. A member of staff should inform the School Office so that the Executive Headteacher/Head of School are alerted
4. If the search proves negative then the School together with parents and police are informed.
5. Staff must ensure the welfare, both physical and emotional, of other children in their care.
6. Visit Leader to provide the police with details of the child and incident.
7. The Head of School to be responsible for gathering all relevant information and liaising with the required authorities and parents.
8. A full report of the incident will be made as detailed below.

*After the Incident

The Senior member of staff involved will sensitively discuss with the child's parents the events surrounding the disappearance of the child.

The Executive Headteacher/Head of School will carry out a full investigation taking written statements from all staff present at the time.

The Incident Report will detail:

- The date and time of the incident
- What staff/children were in the group/class
- When the child was last seen in the group
- What had taken place in the group/class since then and the time it is estimated that the child went missing.

A conclusion is drawn as to how the breach of security happened and, if appropriate, procedures (including risk assessments and training) may be updated.

Members of staff must refrain from making comments to members of the public; any questions must be referred to SLT..
